### NeoColab\_REC\_CS23231\_DATA STRUCTURES

REC\_DS using C\_Week 4\_COD\_Question 3

Attempt : 1 Total Mark : 10 Marks Obtained : 10

Section 1: Coding

#### 1. Problem Statement

Write a program to implement a queue using an array and pointers. The program should provide the following functionalities:

Insert an element into the queue. Delete an element from the queue. Display the elements in the queue.

The queue has a maximum capacity of 5 elements. If the queue is full and an insertion is attempted, a "Queue is full" message should be displayed. If the queue is empty and a deletion is attempted, a "Queue is empty" message should be displayed.

## Input Format

Each line contains an integer representing the chosen option from 1 to 3.

Option 1: Insert an element into the queue followed by an integer representing the element to be inserted, separated by a space.

Option 2: Delete an element from the queue.

Option 3: Display the elements in the queue.

#### **Output Format**

For option 1 (insertion):-

- 1. The program outputs: "<data> is inserted in the queue." if the data is successfully inserted.
- 2. "Queue is full." if the queue is already full and cannot accept more elements.

For option 2 (deletion):-

- 1. The program outputs: "Deleted number is: <data>" if an element is successfully deleted and returns the value of the deleted element.
- 2. "Queue is empty." if the queue is empty no elements can be deleted.

For option 3 (display):-

- 1. The program outputs: "Elements in the queue are: <element1> <element2> ... <elementN>" where <element1>, <element2>, ..., <elementN> represent the elements present in the queue.
- 2. "Queue is empty." if the queue is empty no elements can be displayed.

For invalid options, the program outputs: "Invalid option."

Refer to the sample output for the formatting specifications.

Sample Test Case

Input: 1 10

```
24,801,29
Output: 10 is inserted in the queue.
    Elements in the queue are: 10
    Invalid option.
    Answer
    #include <stdio.h>
    #include <stdlib.h>
    #define max 5
    int queue[max];
    int front = -1, rear = -1;
   You are using GCC
int insertq(int *data)
      //Type your code here
      if((rear + 1)%max==front){
        return 0;//Queue is full
      if(front==-1){
        front=rear=0;
      }else{
                                                    24,180,1,29
       rear=(rear + 1)%max;
      queue[rear]=*data;
      return 1;
    }
    int delq()
      //Type your code here
      if(front==-1){
        printf("Queue is empty.\n");
        return -1;
                                                    241801129
     int data = queue[front];
if(front==rear){
```

24,180,1,129

241801129

24,180,1,129

241801129

```
}else{
        front=rear=-1;
         front=(front+1)%max;
       printf("Deleted number is: %d\n",data);
       return data;
    }
    void display()
       //Type your code here
       if(front==-1){
         printf("Queue is empty.\n");
        return;
       printf("Elements in the queue are:");
       int i=front;
       while(1){
         printf(" %d",queue[i]);
         if(i==rear) break;
         i=(i+1)\%max;
       }
       printf("\n");
    }
    int main()
while (1)
       int data, reply, option;
         if (scanf("%d", &option) != 1)
           break;
         switch (option)
            case 1:
              if (scanf("%d", &data) != 1)
                break;
              reply = insertq(&data);
              if (reply == 0)
                printf("Queue is full.\n");
              else
                printf("%d is inserted in the queue.\n", data);
              break;
```

```
241801129 case 2:
del~^
                                                                               24,180,1,129
                         Called without arguments
              delq(); //
                           2418
              break;
              display();
              break;
            default:
              printf("Invalid option.\n");
              break;
         }
       }
       return 0;
Status : Correct
                                                                        Marks : 10/10
